## IDA APPLEBROOG

### *Safety Zone*

October 26 – November 30

Ida Applebroog will exhibit a series of new paintings, entitled *Safety Zone*, which deal with the anatomy of contemporary life. Some of the pieces consist of disjunctive and seemingly irrational fragments assembled as unified paintings; other works are disjunctive and seemingly irrational fragments assembled as unified paintings; other works are dismantled into freestanding fragments, permitting entrance into the narrative which is without beginning or end. In this situation, the human body becomes the landscape.
